

THIS STUDY NO LONGER RECRUITING

Name of Study: Stress and Marital Satisfaction Among Parents Caring for a Child Diagnosed with Autism

Institution: New York Institute of Technology

Location: Web-based study

Eligibility Criteria: Parent of a child (of any age) with Asperger's Syndrome, HFA, or PDD-NOS

Principal Investigator: Dr. Oren Shtayermman

Contact Information: Dr. Oren Shtayermman, phone (516) 686-1084

Dear Parent,

Dr. Shtayermman is conducting a study that looks into the impact raising a child diagnosed with Asperger's Syndrome, HFA, PDD-NOS on the parents. This study will ask you to complete a 15 minute survey online exploring your thoughts and feelings in relation to stress and marital satisfaction. You qualify to participate if you are a parent who is raising or raised a child who was diagnosed with Asperger's Syndrome, HFA, or PDD-NOS. There is no age limitation for the child, in other word, you child may be an adult today. Participating in this study is completely voluntary. You may skip any questions that you do not want to answer and you may choose not to fill out the questionnaire at all. Participating in this study will probably not benefit you directly. Your participation will allow us to understand your experiences while caring for a child diagnosed with autism spectrum disorders. Any services you currently or in the future receive will not be impacted by whether or not you choose to participate in this study. If you are interested in participating, please click here

You may also contact Dr. Oren Shtayermman at (516) 686-1084.

Thank you in advance for your time and assistance.

Sincerely,

Dr. Shtayermman
