

IAN: A Fast New Vehicle for Autism Research

Putting the Interactive Autism Network Through Its Paces

Objectives

- Learn how you can harness the power of Internet Mediated Research (IMR) to speed and enhance your research
- Experience how IAN, the Interactive Autism Network, is connecting researchers and parents in a rapidly-growing research database and online community to explore ideas about Autism Spectrum Disorders efficiently and effectively
- Join your colleagues who are already using this open resource to forge a stronger bond between researchers and families.
- Help shape IAN to make it more responsive to your research needs.

Agenda

- Going the Distance: Welcome and introduction
- The Auto Show: How IAN can accelerate autism research
- Kicking IAN's Tires: Brief demo
Pit Stop
- Test Drive: IAN answers your questions
- Winning with IAN: IAN's performance so far
Lunch
- IAN on Your Home Track: Topical mini-breakouts
- Qualifying Laps: How IAN can help you
Pit Stop
- Race Strategy: Where do we go from here?
- Start Your Engines: How will you use IAN?
